***INVESCO* Scored "Highest In Overall Consumer Satisfaction"**

Chicago Magazine commissioned a study by Crescendo Business Services to find out which of the more than 31,000 wealth managers in the Chicagoland area scored highest in overall satisfaction.

Crescendo mailed over 250,000 questionnaires in their survey and followed up by phone (1 in 4 high net worth households). The survey respondents named 15,500 financial services professionals (about half). Based on the survey, most of the 15,500 were eliminated. The remainder were reviewed for regulatory actions, civil judicial actions and customer complaints to FINRA, the SEC, the State Board of Accounting and the State Bar.

These 455 professionals represent the TOP 1-1/2% of all 31,000! We consider this quite an honor.
